15th International Symposium on Novel and Nano Materials

Invitation

The 15th International Symposium on Novel and Nano Materials(ISNNM) will focus on the overall nanomaterial researches such as Advanced Materials Processing, Advanced Powder Metallurgy, Additive Manufacturing(3D Printing) and MIM, Characterization and Modeling, Energy and Functional Materials, Nanocomposites and Nanoporous Materials, Rare Metals and Recycling, Refractory Metals and Hard Materials. All main aspects of these materials will be covered. including synthesis, mechanism, microstructures, properties and applications. The symposium will provide the latest research results and a state-of-the-art overview of technology in the exciting and rapidly evolving field of nanomaterials. Symposium sessions will also include invited lectures from internationally distinguished scientists discussing topics ranging from the most recently discovered materials to the latest techniques of production. Manufacture's contributions and exhibitions are welcome to promote further interaction between the scientists and the industry. Registration and contributions for the Symposium in the form of oral or poster presentations are warmly invited and are open to all. Selected papers will be published in SCI/SCIE journal after peer review.
